

**Lead Safe Work Practices (LSWP)
Renovation, Repair and Painting INITIAL (RRP I)
Renovation, Repair and Painting REFRESHER (RRP R)**

**TRAINING CLASSES
AUGUST & SEPTEMBER 2010**

CLASS SIZE IS LIMITED—REGISTER TODAY

Effective April 22, 2010, workers performing renovation, repair and painting projects that disturb lead-based paint in homes, child care facilities, and schools built before 1978 must follow specific work practices to prevent lead contamination and must be certified. This new federal EPA Renovation, Repair, and Painting (RRP) rule applies to contractors, painters, plumbers, carpenters, electricians, window replacers, roofers, etc.

Trainings to become certified are being offered by Cornell Cooperative Extension Albany County.

The Lead Safe Work Practices trainings are based on EPA's and HUD's previous model courses in lead-safe work practices. This course satisfies HUD requirements for interim controls in federally assisted housing. The RRP trainings are taught by an EPA certified training provider.

Upon successful completion of either RRP course including passing an exam at the end of the class, participants are RRP certified by the EPA for 5 years.

Failure to comply with EPA's RRP program requirements could result in penalties of up to \$37,500 per day per violation.

Dates

- August 31-LSWP—FREE**
- September 15-RRP Refresher—FREE**
- September 21-LSWP—FREE****
